

## Where founders become builders.

Treso Venture Studio is where founders become builders. As the founder-building arm of **Treso Group** ([tresogroup.com](https://tresogroup.com)) — an operating group with companies across various industries — we co-build new ventures from day zero. You bring the idea and the drive; we bring seed capital of up to \$25K, an operating partner who has built real businesses, and the structured 8–12 week sprint that turns ideas into companies.

### WHAT YOU GET

#### Seed Capital

Up to \$25,000 CAD per team, deployed at day zero. No pitch decks, no committees, no waiting.

#### Co-Founder Partnership

Treso joins as a co-founder with real skin in the game — operators on your team, not advisors.

#### Operating Infrastructure

Legal, finance, HR, and back-office handled. Stay focused on building product and revenue.

### HOW IT WORKS

#### STAGE 01

##### Treso Venture Studio

8–12 week sprint. Build your MVP, validate the problem with real users, and prove product-market fit.

#### STAGE 02

##### Treso Capital

Validated ventures unlock follow-on financing — AR/AP lines, equipment finance, and growth capital.

#### STAGE 03

##### Treso Portfolio

Scaled ventures join the Treso Portfolio — owned, operated, and supported for the long term.

*"Capital follows the founder — **from day zero to scale.** We don't just invest. We co-build."*

## WHO WE'RE LOOKING FOR

### You should apply if:

- You are a team of 2 to 4 people
- You have a clear idea — new or in progress
- You can commit full-time for 8–12 weeks
- You are based in or willing to operate from Canada
- You want a partner, not just a cheque

### You should not apply if:

- × You don't have an idea yet
- × You can't commit full-time
- × You're looking for a job or paid role
- × You're not ready to share equity with a partner

## ABOUT TRESO GROUP

Treso Group is built and led by operators with 50+ years of combined experience scaling companies across logistics, transportation, real estate, and agriculture in North America, Europe, and Asia. The Treso Portfolio already includes **Cargo County** and **Amplify Logistics** — Canadian companies built and operated by the Treso team. Treso Venture Studio is the platform we built to back the next generation of founders, with the same operator-first approach. [Meet the team at tresogroup.com](https://tresogroup.com)
